ITAZUKE AIR FORCE DEPENDENTS SCHOOL KYUSHI JAPAN

## DEDICATION

We of the staff would like to dedieate the 1956 BAMBOO to the man responsible for making our school what it was this year.

He gave much of his time to extra class activities and to the BAMBOO which without his help would have been impossible.

Our sincerest thanks to the youngest and finest principal in the Far East, Mr. Edward C. Pino.

The BAMBOO presents the Itazuke Story... a story of expansion, increased enrollments, and "firsts"...a story recorded in words and pictures for the future.

The Itazuke Air Force Dependents School began to function as a kindergarten through grade twelve public school in September of 1952, when the senior high moved from its former location in Fukuoka City. Prior to this date, only an elementary ( $\mathrm{K}-8$ ) school was located at the Base proper. From this humble beginning, our school had grow in every way. From a total enrollment of some 200 students in 1952 to more than 650 during this school year. From a narrow core of secondary subjects, to a broad curriculum purposed for future life adjustments. From students to studies, our school had grown into one of the most important educational centers operated by the Air Force for dependent children in the Far East. This beginning, this climb, this flowering, is our story.

## HUMAN SUBJECTS

The student.. backbone of our school. More than 650 in all. Young Americans transplanted some 7000 miles from home. And where was home? From Maine to California; from Michigan to Texas.... from forty-six states they came. By ship and air they migrated in separate groups to almost completely turn over the entire student body in one school year.

And what kind were they? Of average background, intelligence, interests, and ambition. The Faculty described them, as "mature, well disciplined, receptive, cooperative, and alert." They had two common ties...all were dependents of military personnel assigned to the United States Security Forces, Kyushu, Japan and all had that easily recognized "extra" that made for them a school of which to be proud-the Itazuke spirit which molded human subjects into an infamous story.

## ONE OF 176 DAYS AT IHS

And to school they came. From some 375 on base quarters and the 600 off base rentals; from as far away as Fukuoka City and Camp Hakata they came. By foot, bike, car, and bus, they made their way. Rain or shine, it made no difference. Grades 7-12 were first to arrive at 0845 hours, followod by grades 4 - 6 at 0900. Through the doorway to make that first hour class before the tardy bell. First to lockers.. a glance at the bulletin board, an absence excuse to be picked up in the office, and this accomplished, settling down to another day of classes from home economics to French, from art to office practice. Ianch in the all parpose room, advice from our counselor, assembly programs and air alerts. A school day: always different, yot, in many ways, always the same. From the PM crews who repaired our radiators, to the bus ride at the end of another day, students were at "home" in classrooms and hallways......... learning by doing in our academic proparation for life.

## FROM REQUIRED TO REQUESTED

Classes and more classes - the fundamental core of our program was centered around the classroom. Besides the three R's many electives were offered....some 48 different classes in all at the secondary level. Some were required, some requested by students. This school year eleven new courses in such areas as home economics, manual arts, instrumental music, shorthand, Japanese, and art were offered for the first ese, and art were offered for the first
time in an enlarged and more meaningful curriculum programming. Presidents and concurriculum programming. Presidents and con-
stitutions; angles and formulas; adverbs and Shakespeare; bugs and $\mathrm{H}_{2} \mathrm{SO}_{4}$, all combined at the end of the year to record above average results on achievement tests administered throughout the school. For the elementary boys and girls, there was an increased emphasis on visual aids and the basic three R's. For both a spanking new library complete with 1500 new sooks and a school librarian. For all, increased benefit derived from individual attention and a "learning by doing" staff philosophy. A greatly enlarged field trip program and, as always, plenty of hard work both in study halls and library research. Evaluation reports indicated it was all worthwhile. Students ended the year knowing more than ever.

## Education Through Diplomacy

A new approach to education..through student to student diplomacy. All, in a new design with the mission of better understanding between future generations. A new philosophy that promoted more than 100 field trips, scores of inter-school scholastic and athletic contests; many good will tours by teams, music groups; and study workshops. An open door policy for the Japanese to visit our school. A lesson in American public education at an oasis located many miles from its educational counterpart. Wednesday was open house for 150 separate groups who toured our facilities to receive the real inside story of a dependents school in action. Hand in hand with the Fukuoka Prefectural Government and the American Cultural Center, the Itazuke student body proved to be a good ambassador.

This completes the overview to our story. The inside story, however, is recorded in detail on the following pages. The BAMBOO most proudly presents the inside BIG story of .....

Through the Student Council the students of IHS voiced their opinions by means of elected representatives. This group published a High School year's extra class program.

Sponsored by Mr. Pino, this group proved his point....this is our school.

. . A NEW CONSTITUTION BASED ON A NEW PURPOSE FOR STUDENT GOVERNMENT.

Here we have the newspaper stalf for the "COBRA CHARMER" a top notch newspaper full of current news,
 pictures, and articles of interest to everyone. The staff went to press with both regular and extra printed editions as well as frequent "poop" sheets. The best year yot for this staff.

Sponsored by MISS COUGH
and MR. PINO

THIS GROUP RECORDED OUR ACTIVITIES, ASPIRATIONS, AND ACHEVEMENTS.

The National Honor Society is still another first for IHS this year. Our faculty worked hard to obtain a NHS charter for our school this academic session. Six students were selected to become charter members of this new group based on their outstanding records in four areas: scholastic average; character; leadership; and cooperative spirit. Each student chosen received the unanimous vote of all secondary members of the staff. In an impressive candlelight ceremony, these honor stu dents were initiated on 26 April and thereby established the first nation wide organization to be represented at our school.

R. GICH, Instructor 1OWARD GILBY, Student Assistant

The Safety Patrol has been responsible for the protection of the youngor children before and after school as well as during lunch hours and recesses.

The Hobby Shop did a lot of work for the school. This class was the first Manual Arts Class at Itazuke High. They made such items as checker boards which were donated through the Junior Red Cross, to the Hospital for their use.

ponsored by MR. NEISON

The Radio Workshop made several Saturday morning broadcasts over Far East Network. They also presented the play, "The Man Who Came To Dinner" at the Annex Officers Open Mess and at school. Another first for IHS this year.

MRS. Mc CARTNEY, Instructor

The Art Class was helpful in creating decorations for various activities such as dances, banquets, and games. It was the first Art Class for IRS.

MISS ERLICH and MR. HIROSHI, Instructors

MISS YUFU, Instructor
The Japanese Class instructed by Miss Iufu, visited several Japanese schools. They gave many speoches in Japanese. Their principle activity was learning to read the language.

The Home Economics Class enjoyed their work very much this year especially, since they were able to eat what they cooked........well, they enjoyed most of it. At any rate it was a very successful year.

The Junior Red Cross, sponsored by Mr. Nelson, has done considerable good will work with our Japanese neighbors and for our military hospitals in the area. They sponsored student exchange trips, donated books to schools, and filled gift boxes for needy citizens of Foreign Lands.

This organization is typical of the many activities sponsored by the school this year for the purpose of promoting better understanding between Japan and America. Above, MIKE DORAM presents a framed Declaration of Independence to a Chikushi Ga Oka High School representative.

Above, NICKY IVANCICH and ANNA FAYE SYLVIES, student Co-chairmen of the JRC present a $\$ 25.00$ Children Fund check to Mrs. Audrey Bassett, FEC Director of JRC, while Mrs. Theuer local JRC Chairman and Mr. Nelson, Faculty Sponsor observe the presentation.

Right, MIKE DORAM again in Japanese - presents a $\$ 20.00$ check for the purchase of books to a student representative of the Tonan Junior High School.. a fellow school which lost it's entire library due to fire.

The Itasuke High School Band, one of a fow in the Far East Cosmand has done a fine job under the leadership of Mr. Nelson in entertaining the students and parents, and in supporting our teams. The Beginner's Band, sponsored by Mr. Hollis, helped supply the first band with musicians and ontertained at Junior High parties. Two more new activities for IHS this year.

Swimming, pock ball, football, boxing, tumbling, and volley ball were some of the sports on the varied schedule instituted by Mr. Gich.

As in the boys' class, Miss Lowe's High School girls' PE class started each period with exercises At the beginning of the year, the girls went swimming; later they played volley ball.

The Jr. High boys' class followed much the same program as the High School boys. Some of the sports taken by the class were poke ball, football, swimming, weak horse, boxing, tumbing, and volley ball.

Miss Jones was the instructor of the Junior High girls' gym class. The girls had many varied sports including volley ball, swiming, tumbling, basketball and relay races.

The Itazuke Story.........a BIG story for the administration of our school. Six new classroons three blocks south and east of the main unit with a "Head Teacher" to supervise the intermediate grades assigned to this facility. Twenty five major physical improvements to existing buildings and advanced planning for even more classroom space for next year were accomplished. Personnel expansion also.....new positions of school clerk, librarian, NCOIC for supply, a full time school health murse, and Japanese coordinator were established. The professional and custodial staffs were onlarged and responsibilities for all positions vere aligned on an organization functional chart. An improved lunch orogran was organized around two new lunchroons and three lunch oriods.

Increased student enrollment, and onlarged educational progranming inereased the need for assistance in almost every area... From buses to che use of the base gymnasium, our Base met this challenge to provide the best support jet received by our administrators and to prove this rear's school slogan "Our School...Your Investment".

Our military helpers. The Dependents School Officer; direct liaison between the administration and cormand. The 8th Air Base Group Commander; the school was a part of his organization. And the School Board; an advisory group to both school and command. All are to be congratulated for their positive efforts in making our school the fine organization it was.

We had Barbara doing a "Repeat Performance" for 1956 here in Japan. She lived at Hakata and attended the Hakata School when it was located in Fukuoka City. She was Prom Norfolk, Va . She planned to become a typist upon graduation. It seemed like she disliked Florida, but liked people and dogs. Barbara in ten years will probably be typing 200 words a minute with no errors.

And from the deep South we had Norman. He was born in Philadelphia, Pa. Norm liked "most anything worthwhile, especially girls." He wanted to be an aeronautical engineer. He disliked his homework and the Hakata bus. His favorite expression was, "Don't be bitter." Can't you vision Norm ten years hence, world famous because he designed the first rocket ship to reach the moon.

## JUNIORS

The class of ' 57 started the year with thirteen members. At the close of the first semester, there were four newcomers, but five old-timers had left for the U.S.A.

The juniors sponsored many activities throughout the year. One was the Welcome Banquet in honor of the teams visiting IHS for the Western Japan High School Basketball Tournament. The biggest event of the year Was the Junior-Senior Prom sponsored by the class on May 18.

## SIXTH GRADE

Miss Cloyd's sixth grade class had shrunk and expanded several times during the past year. They had consistently had twice as many girls as boys. They told us they had elected class officers once a month and had many capable candidates running for office. Their favorite recreation seemed to be square dancing. They also enjoyed all the nice parties they had, both in and out of class.

The students of Miss Matteson told us thoy really liked their new location in building S-1638 as it gave them the opportunity of observing the whole cycle of rice farming. In geography the class had been studying the United States, and in arithmetic they wore attacking the problems in fractions. All of the "annex" will remember their intermediate newspaper pablications.

We found Miss Erlich's fourth graders had a very full year. They told us they had gone from current events to the SILK ROAD: from times tables back to the abacus: from square dancing to the Japanese Dance: Halloween masks to classical kabuki. They said that though East is East, and West is West, they had met and enjoyed each.

HOWARD
FOURTH GRADE

We noticed many new faces in Miss Howard's roon. The students told us they parted with many friends but had gained as many new ones. During the year, the class organized many scholastic contests with the other fourth grade and learned to win and lose. At Christmas time the class participated in the annual PTA program entitled "The Littlest Angel."

The third grade children were eager to tell us of their trip to the silk factory and also, how they had been studying the United States and Japan to discover their likeness. In November they took part in the PTA program together with the other two third grade rooms. Everyone who saw the program liked it very much.

Miss Cullett's class told us of the interesting time they had when they were invited to the American Cultural Center in Fukuoka to see a Christias program presented by Japanese children. They also participated by singing Christmas Carols. They also went on a trip to the silk factory, the zoo, and to a Japanese home.

MISS WARD

SECOND GRADE

The children of Miss ward's second grade were quick to explain all the wonderful activities they had been doing. To begin the year they studied a Japanese unit. During Christras we all remember seeing Miss Ward's and Miss Roger's pupils all dressed up and walking through the halls singing Christmas carols. They also preformed for the March PTA assembly.

## MISS ROGERS

SECOND GRADE

Upon entering Miss Roger's class we were surprised to see a beautiful aquarium, and even more surprised to learn the children had built it and were caring for it. They had learned much of the cycle of rice farming as they had gone on a field trip to near by rice field. They were also able to write their names in Japanese characters.

lst row, left to right: Gary Morris, Miss Rogers, Lynn Westrall, Donna Moore, Gerry Merritt, Cheryl Pearson, Linda Bush, Sandra Nicholson, Sandra Moore, Linda May, Mary Oliver.
2nd row: Lonnie Hicks, Glenn Prescott, John Newman, Bruce Beyers, Ronald Mansfield, Gene White, David Mauget, Chris Wynkoop, Lawrence Monk, Douglas Meroney, Dennis Morrow, Alvin Miyatake, Thomas Martin.

In Miss Hamilton 's room we found students reading and what fun they seemed to be having learning new words. They told us all the interesting things they had learned of our own country 's history and how they were proud to be Americans. The school year, they said, was going very quickly and they were said to see their old friends leave; they were glad however, to meet the many new ones.

Miss Gosar's class was proud to tell us they had kept all of thoir friends and even gained new ones, never once saying "Sayonora". We were surprised to hear the children of Miss Gosar's class also talking of their visit to the rice fields. This classroom and their teacher were largely responsible for the school's primary newspaper.

MRS. WILLTAMS
KINDERGARTEN

## morning

The kindergarten was a very busy place when we visited their classroom. We found students pasting pictures, and others finger painting. The students told us they liked to sing songs and listen to stories. There was much to learn too; writing names, counting, and reading readiness. We could see they had had a good first year of school.

lst row, left to right: Charles Appel, Donna Darbyshire, Connie McKinney, Tommy Davidson, Dick Davidson, Sandra Ralston, Shelly Hart, Arthur Bona. 2nd row: Larry Van Camp, Paula Tucci, Christianne Ellingson, Charles Carey, Sherry Henderson, Sally Arnold, Billy Harriss, Cynthia Towle, Jane Schoskey, Douglas Potter. 3rd row: Leslie Jo Burns, Peggy Sue Bishop, Cathy Culpepper, Marjorie Kent, Lyan Elam, Mike Murphy, Katie Issacson, Larry Grant, Emily Collins, Joni Shumate, Mike Thomas.

This completes our tour of the elementary classrooms . . a tour of words and pictures that is a vital chapter in the Itazuke story.
